2) Sign-Up feature

User can register himself by filling the required fields on the given sign-up form.

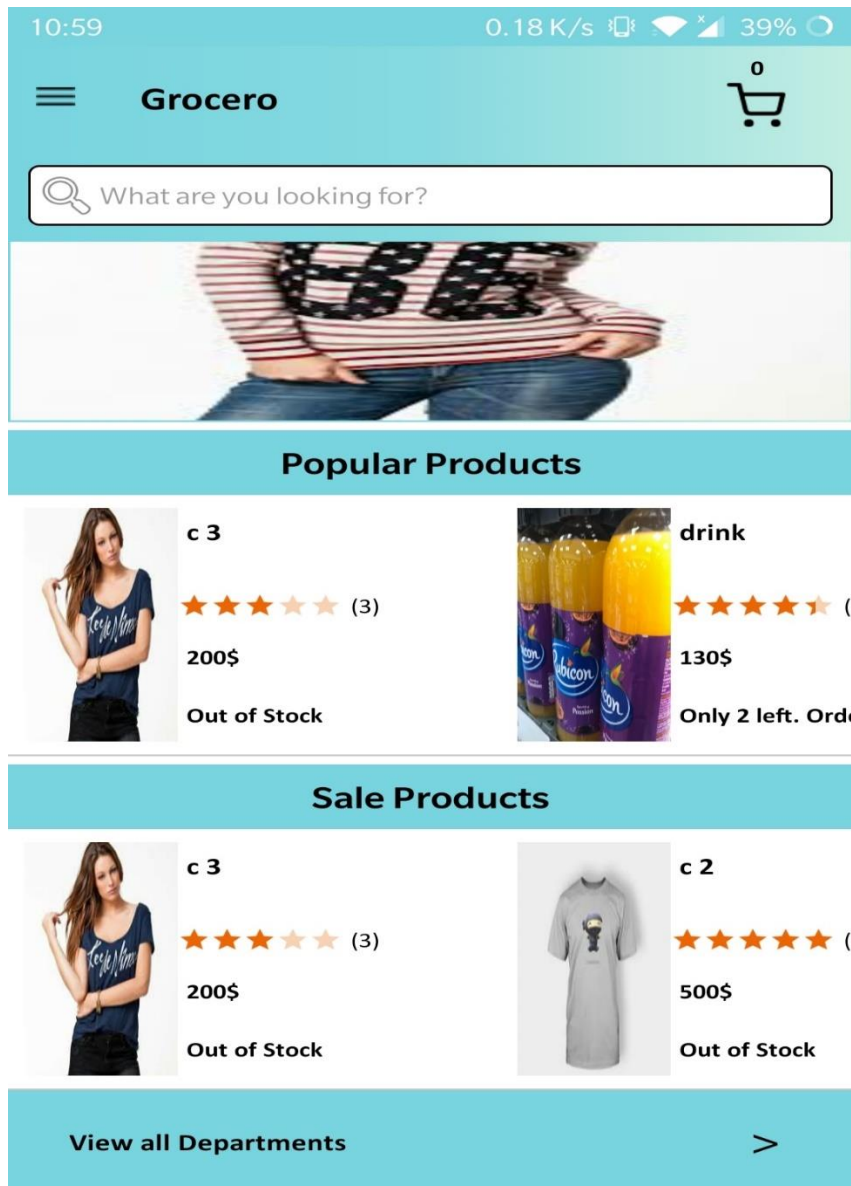

The image shows a mobile application interface for a grocery app named 'Grocery'. At the top, there is a status bar with the time 10:59, a battery level of 39%, and a data speed of 0.19 K/s. Below the status bar is a teal header with a back arrow and the text 'Grocery'. The main content area is white and contains a 'Welcome' message. Below the welcome message, there are two radio buttons: one selected (filled) with the text 'Not have Account? Sign Up', and one unselected (empty) with the text 'Sign In'. Below the radio buttons is a sign-up form with a teal background. The form contains four input fields: 'Name*', 'Email*', 'Mobile Number*', and 'Password*'. Each field has a white border and a white background. Below the input fields is a large orange button with the text 'Sign Up'.

☐ Sign In

3) HomePage feature

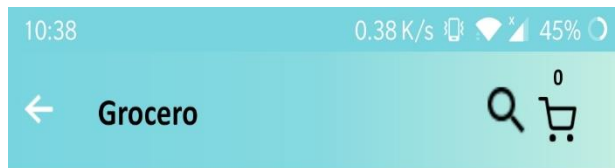

On the homepage you can see the following list of products.

1. Latest products (in this section you can see the recent latest products)
2. Popular products (in this section you can see the popular products)
3. Sales products (In this section you can see the sales product.)

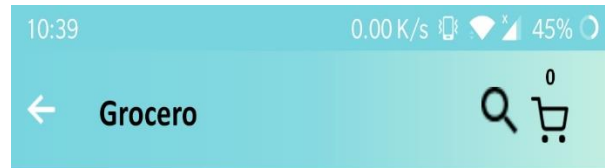

4) Add category/sub-category

You can add category and sub-category. Application has feature in which you can add product category and subcategory with filters (recommended, Lowest to high, High to Lowest)

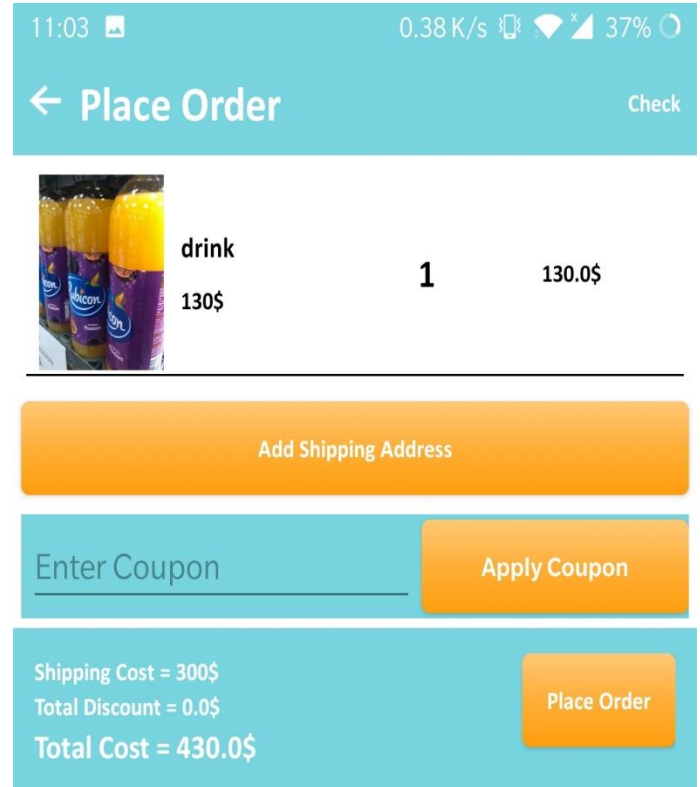

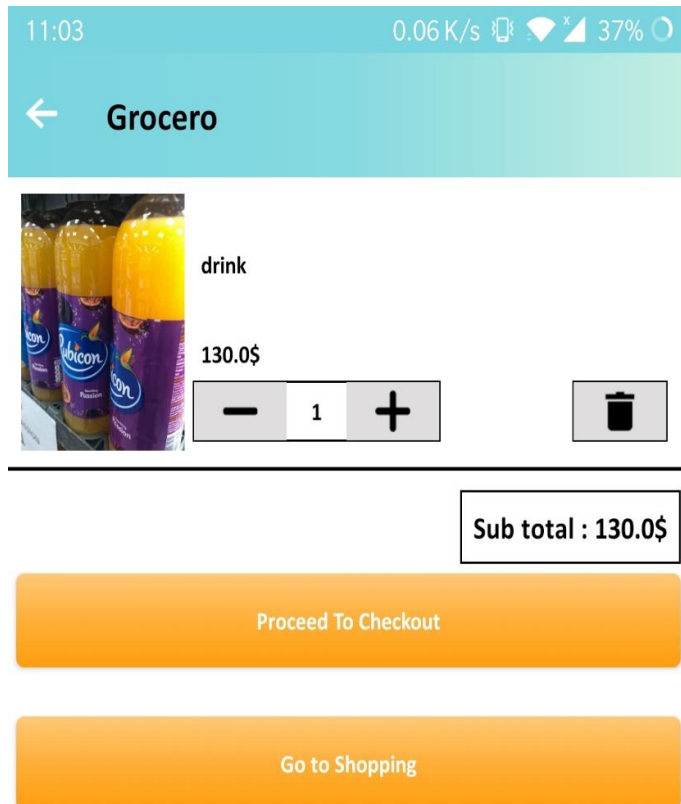

dress	>
food	>
shoes	>

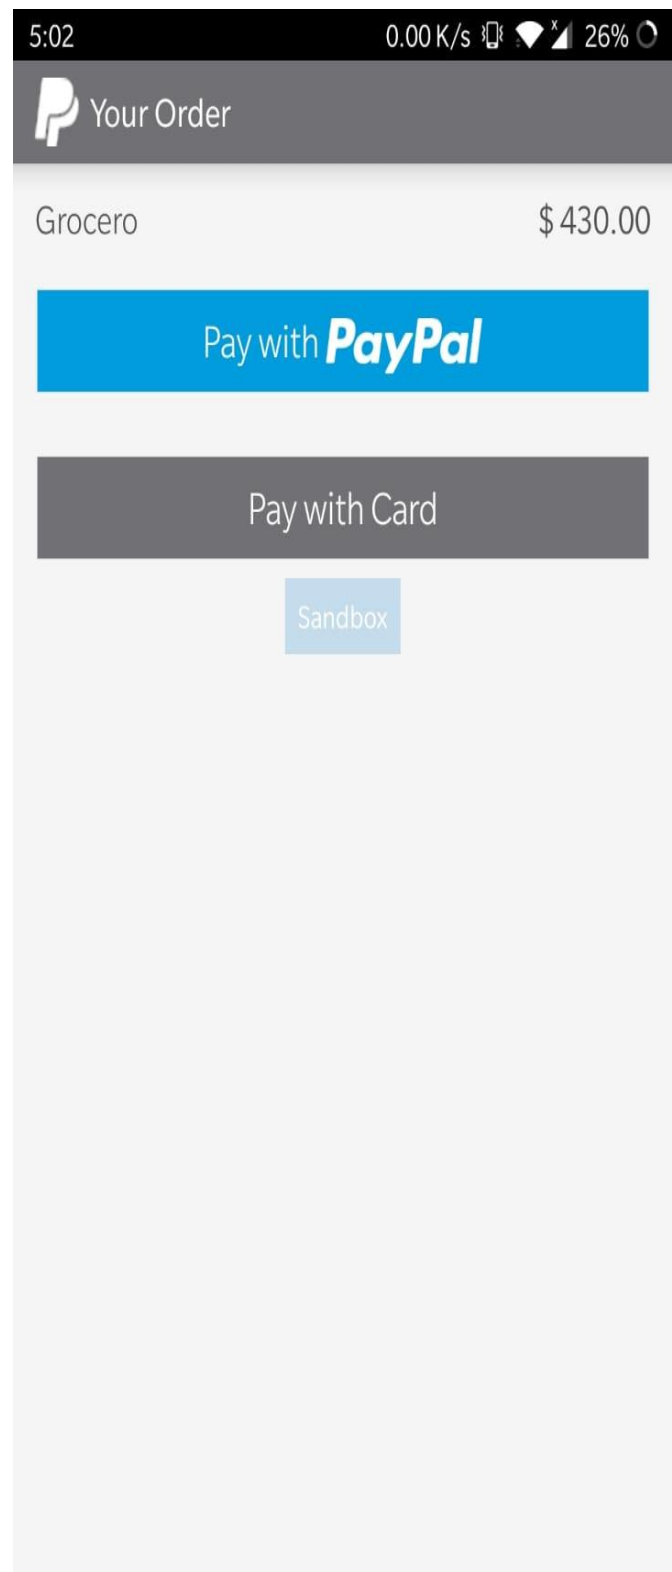

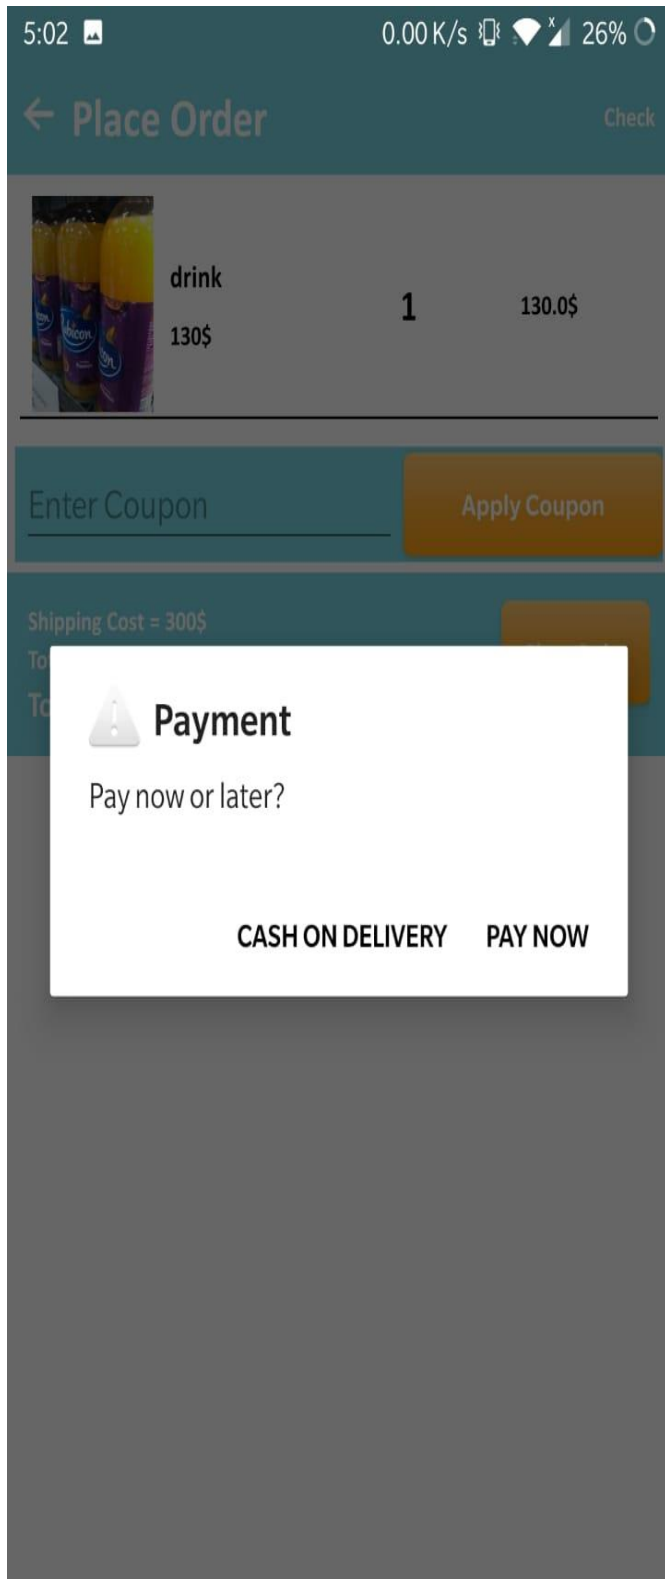

5) Add to Cart Feature

Every product has add to cart option. by click that option you can add product to cart. after adding product to cart you can see the further option like selecting number of quantities. then you will find add shipping address from where you can add shipping address. then proceed to checkout.

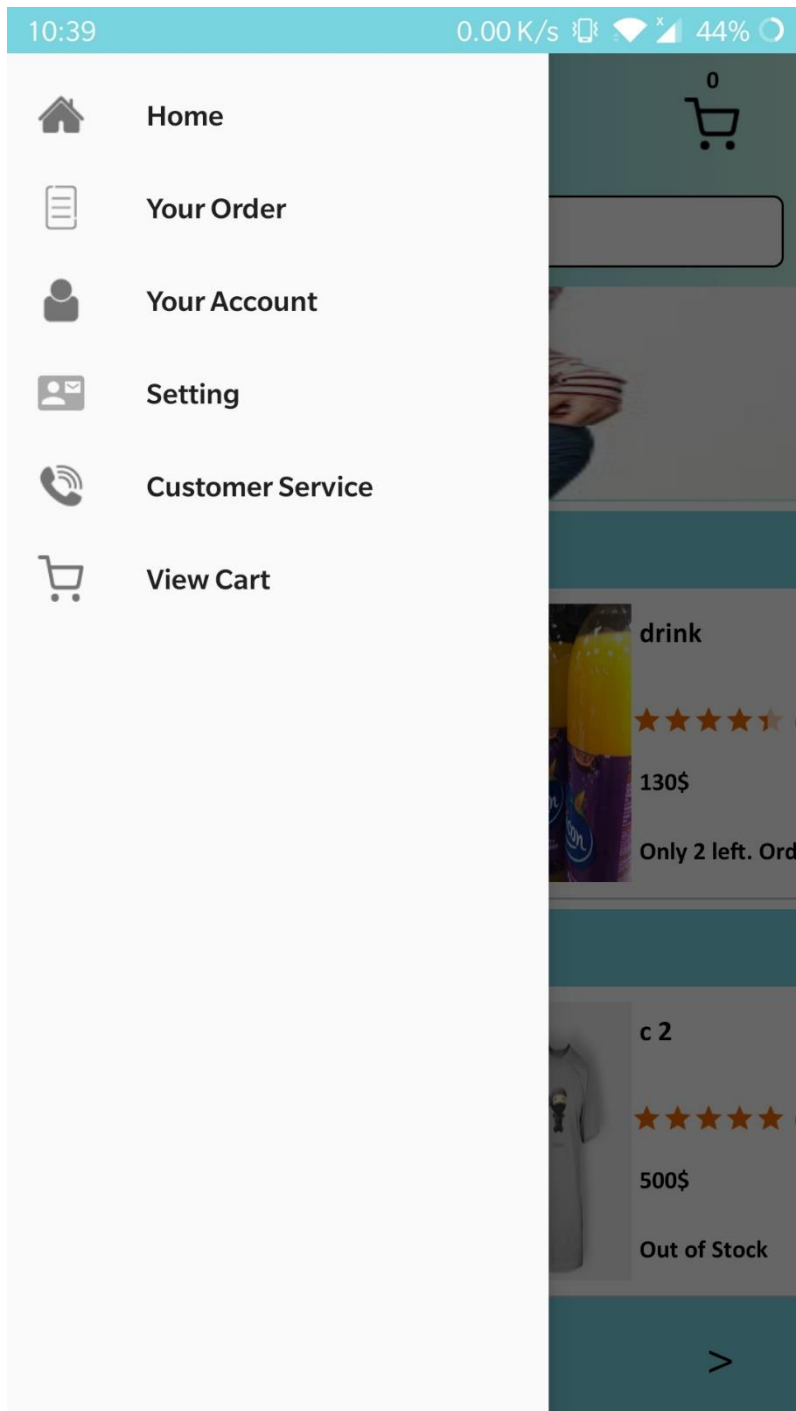

Payment Method: There are two Payment methods cash on delivery & PayPal

6) Customer Service:

Customer service option is also included in the application. By using this feature you can get help or ask a query if any is related to the product.

7) Account

This option lets you edit your information like your name, phone number, email and other options.

The screenshot shows a mobile application interface. At the top, a dark blue header bar contains a back arrow, the text "Place Order", and a "Check" button. Below the header, a light blue modal form is displayed. The form contains five input fields, each with a label and an asterisk indicating it is required: "Enter Address*", "Enter Postal Code*", "Select Country*", "Select State*", and "Select City*". At the bottom of the form is an orange button labeled "Add Address". The background of the app is dark grey, and the status bar at the very top shows the time as 11:04, a data speed of 0.19 K/s, and a battery level of 37%.

11:04 0.19 K/s 37%
